I hope the surgery went well.

I called your insurance agent last Wednesday, and he said he expects the surety to be finalized this week, about Oct. 18. I received the map, and it will suffice for fulfilling the cessation order requirements. It may not be adequate for the Notice of Intention, but I will argue that it is.

The deadline for completing the cessation order is today, and assuming the surety will not be completed today, I need you to send an extension request. I'll take e mail, a fax, or even a phone message with a realistic time frame.

Please call or write and let me know how things are progressing.

Thank you.
